

# REQUEST FOR PRICE QUOTES

The Town of Placentia requires welding services from qualified providers for repairs to storm pipe outlets along the Wave Wall barrier on Orcan Drive, Placentia. Interior piping has corroded causing water to bypass the closed valves resulting in flooding along Orcan Drive, Placentia. The scope of work will require patching over the bottom 1/3 of each pipe to prevent leaking.

Prices should quote on the completion of the work in its entirety including materials and/or subcontractors as required.

## For repair of each storm pipe outlet

- Repair and price per repair for work that can be done at low tide

Price per unit \_\_\_\_\_ HST \_\_\_\_\_ Total Quote \_\_\_\_\_

- Price per each outlet that requires work from a boat

Price per unit \_\_\_\_\_ HST \_\_\_\_\_ Total Quote \_\_\_\_\_

The Town is not committing to any or all of the repair listed and may opt to only proceed with the units in the vicinity of Placentia Post Office that do not require boat access.

Queries regarding this RFQ and or Quote Submissions must be emailed to [townofplacentia@placentia.ca](mailto:townofplacentia@placentia.ca) or hand delivered to the Town Hall by Tuesday, December 17, 2019.
