

TOWN OF PLACENTIA MEDIA RELEASE

FOR IMMEDIATE RELEASE - Placentia, June 1, 2022

PLACENTIA COUNCIL CONGRATULATES PORT OF ARGENTIA AND PATTERN ENERGY

Today's announcement of an Option to Lease agreement between the Port of Argentia and Pattern Energy Group LP (Pattern Energy) to advance the development of a substantial multi-phase renewable energy project at Argentia is welcomed news for the Town of Placentia.

The Town of Placentia Council congratulates the Port of Argentia and Pattern Energy on reaching this project milestone. Mayor Keith Pearson says, "The potential for a wind energy project and green gas export of this magnitude is big news for Placentia and the entire province. Major economic development news such as this is significant for Newfoundland and Labrador and more reason for our government to invest in improved roads and services in our municipality."

The Port of Argentia is located within the Town of Placentia and has been a diversified economic contributor to the region for over a century with mining, transportation, industrial operations and US Military Base among its contributions.
