

## **TOWN OF PLACENTIA MEDIA RELEASE**

**FOR IMMEDIATE RELEASE - Placentia, December 15, 2022**

---

### **UNITY PARC WILL REOPEN FOLLOWING MANDATORY MAINTENANCE**

Unity PARC was closed on Wednesday December 14, 2022 as a precaution due to outstanding maintenance.

A workplace inspection followed by Occupational Health and Safety NL and a stop work order was issued. The stop work order requires the facility's Carbon Monoxide (CO) Detection System to be commissioned and the Olympia ice resurfacing machine to be inspected and pass emissions testing.

To date the CO Detection System has been inspected and is awaiting approval documents. The arena ice resurfacing machine is being serviced at a local garage and is expected to be operational in the coming days.

Unity PARC will remain closed until both conditions of the stop work order are met. The Town of Placentia is committed to a safe working environment and thanks all patrons for their understanding while maintenance is being performed.
