

**Request for Quotations  
Great Beach Boardwalk Upgrades  
Estimate, Supply & Install**

The Great Beach Boardwalk (*the Boardwalk*) is located on Townside Placentia. It is a wooden structure measuring 1.4 km., extending the entire length of Veterans' Way (aka the beach road). The Town of Placentia (*the Owner*) is issuing a Request for Quotes (RFQ) from potential contractors (*Bidder(s)*) for inspection and maintenance of the Boardwalk to ensure that it is in good repair and safe for the public use for which it is intended.

**Scope of Work**

Prospective bidders are to provide a quote to include:

1. Assessment – Requirement is to walk the full length of the Boardwalk to inspect for rotten, sagging, broken or otherwise damaged board. This will include inspection of the posts, floor joists and boards, railing supports and top planks, the rest area seating and gazebos.
2. Quote – Requirement is to prepare a full materials list for required repairs. Bidders will submit a quote to include the cost to supply and install the materials to complete the required repairs to ensure the stabilization of the Boardwalk in its entirety. *Note: This RFQ does not include painting.*
3. Warranty – Requirement is for a 60-day warranty from date of full completion as approved in writing by the Owner following inspection by the Owner in the presence of the successful contractor representative. The Bidder is to be aware that if there are boards/posts/joists/planks/etc. missed during the inspection or during the completion of the work, the responsibility is on the Bidder to replace and finish the work within the quoted price.

## **Submissions**

Quotes are to be marked “**Boardwalk Repair RFQ**” and be addressed to the attention of:
