

For Immediate Release

Public Service Announcement: Access Trails and Geotechnical Studies April 2024

Pattern Energy would like to inform residents of Placentia, surrounding communities, and the public that there will be **access trail creation**, as required, happening on the Port lands and the west side of the Backlands, owned by the Port of Argentia, starting on **April 22nd, 2024**, and concluding by **May 5th, 2024**.

This work is associated with initial geotechnical studies taking place for the Argentia Renewables Project, should it be released from EA Registration. The **geotechnical studies** will begin in the same areas on **May 6th, 2024**, and will be concluded by **July 1st, 2024**.

No traffic interruptions are expected during the access trail creation or geotechnical studies.
